Fire broke out in the Benton Store last Friday but was extinguished. The crew of the west bound passenger train gave timely assistance with fire extinguishers and the fact that no great damage was done, was due in no small measure to their efforts.

A dance will be held to-morrow night in the New Superba School House.

Members of the Gun Club were out in force yesterday afternoon when some very creditable scores were made. The scores are given on page five under the heading of "Gun Club Corner".

Born.—to Mr. and Mrs. Geo. Moxon, a daughter.

Mrs. Wm. Glean of Helmsdale, who was taken ill on Friday last, is reported to be progressing favourably.

Mr. Chester E. Moffat, of Alaska, arrived in town on Tuesday evening to take the place of Mr. Robt. Smith of the News Staff, who had to leave the office on Monday owing to sickness. Mr. Smith is progressing favourably and will be back on the staff again in a few days.

Rev. Geo. A. Steele will conduct Sacramental Services on the Fairmires Mission, Sunday August 30th.

Rev. T. J. J. Stanton of Fairmires will preach here Sunday evening. Mr. Jones will sing the famous "Recessional" by Rudyard Kipling. We anticipate a good service and extend a welcome to all.

Miss Marjorie Murdoch returned to Girvin, Sask., this morning after spending a few days with her friend, Miss Thelma Dial.

At a special meeting of the town council plans for a building to house the fire equipment were discussed and is anticipated that the construction of same will be commenced at an early date.

A financial statement of the Oyen Sports Day has been prepared by the Secretary-Treasurer, and same may be seen by all subscribers to the fund on application at the News office.

We want more subscribers. If your name is not already on our mailing list call in with one dollar and become a reader and supporter of the paper of your district.

Mr. and Mrs. Alvin E. Oryls and son who have been visiting friends in the West, returned to their home in Dryden, Ont. on Saturday last. They were accompanied by their daughter, Mrs. Wm. Saunders and her son.

## Prairie Fire Near Excel

A serious prairie fire was started last Thursday on E. M. Connor's place, 23-28-4 near Excel, which did considerable damage before being extinguished.

While Mr. Bakken's men were preparing dinner, the camp fire for the purpose, got out of control, and the flames rapidly spread before the wind which was blowing at the time. Within two hours the fire passed over two townships, jumping several fire guards, across its path. Mr. S. Oakley had all his camp destroyed on section 27-28-5 and the new school under construction for the Lewvalde District on section 27-28-4 and the new district had a very narrow escape.

## Destroy The Flies!

### Unique Advertising in Denmark

On the billboards in Copenhagen appears the sign, "The most dangerous of all the animals is not the lion, the tiger or the reptile, but—the fly." This is one of the means Herr Falck is using in his campaign against flies. He has also organized the first complete fly exhibition in the world, which contains every kind of weapon yet invented for trapping, poisoning or smothering flies, most of which contrivances come from the United States.

There is an old superstition that a Christmas fly brings good luck. They say it does, but—this Christmas fly has won that the Christmas fly has won 105,312,540,000 descendants in the summer months. Think of the colossal slaughter if every family in town killed a Christmas fly. But do not wait till Christmas. Do it now.

## Temperance Lecture

Rev. A. R. Ahlberg gave his illustrated Temperance lecture to a fair sized audience, in the Methodist Church, on Friday evening last. He set forth clearly the policy of the Alberta Temperance and Moral Reform League and the method adopted. By means of this Direct Legislation Act the Temperance forces hope to secure Provincial Prohibition of the sale of intoxicating liquors as a beverage. The most advanced legislation which the Provincial Government can grant. Copies of the proposed bill are being circulated throughout the whole province, attached to these are petitions to be signed by all qualified electors who approve of having the bill submitted to the people. To be effective these petitions must be signed by at least eight per cent of the electors of each constituency and totaling twenty per cent of the total electorate, using as a basis the number of votes cast at the last provincial election. If enough signatures are secured the Government must either enact the legislation desired or submit the question to the people. If it is carried by a straight majority vote, the bill becomes law.

Copies of the bill and petitions are in the hands of Mr. Arthur Walker, Mr. J. Alexander and Rev. G. Steele, who are responsible for Avadia Constituency from range one to five inclusive. All who desire to sign these petitions or who are willing to assist in their circulation are requested to co-operate with the above named men all of whom reside at Oyen.

## Municipal And Government Help

With the crops far below early hopes and expectations, it is probable that the coming winter will be an exceptional hard one for quite a few of the farmers of this district and the question arises "What is going to be done about it."

In many cases it will be impossible for some families to purchase their supply of coal and flour for the winter unless they receive help from their municipality or the Provincial Government. This matter is one which should receive the earnest consideration of all municipalities who should decide in ample time what course they will adopt so that families in their district will not have to suffer the hard pinch of actual want.

"The action of the Massey-Harris company in closing down its works and throwing several thousand men out of employment the moment war was announced does not seem a creditable thing. That firm has made large profits with the aid of public assistance through the national tariff, and it owes some duty to the country," says the *Conservative Ottawa Journal*. A Daniel come to judgement! "Large profits with the aid of public assistance through the national tariff." We hope the *Ottawa Journal* will keep up in its frankness when next it sets out to discuss the tariff. — *PROXIX.*

One Theodore Roosevelt of the United States of America, has announced his disapproval of the European war. Too tame altogether. Mr. T. R. will have to spring something a little more startling to climb back onto the front page. — *News-Telegram.*

### Letters To The Editor

#### To the Ratepayers of Corral Municipality:

The road building process is at a close in the district around Excal, and the ratepayers gaze with awe at the wonderful amount of good accomplished by our municipal fathers. Almost every farm is surrounded by an ample foreground in the shape of a fine piece of breaking done in the centre of the road allowance, nicely discoloured. Of course, it is absolutely an good for a road, and never will be, and as soon as the graders are purchased, it will be all coned up again. It is, however, in excellent shape for a flux crop next year. So far we have heard nothing concerning arrangements for seedling in the spring but we are confident that it is the intention of the council to have this done, else why should they have such a nice seed bed prepared, they surely couldn't have meant any one to drive over it.

The work of grading down the hills, has also gone uncommencing. As far as the work itself is concerned it calls for special admiration, as it is just the same kind of work as has been done all over the world in hilly countries. What we admire is the persevering way in which the roadwork was kept up regardless of laying or harvest of course the work was stopped while the foreman (not his own cats) but apart from that the work went steadily on sometimes with half a crew, and sometimes a full crew. Maybe the foreman's wages were cut in half when he was only having half a crew. We are not sure of this but we are sure that our worthy (?) council wouldn't stand for any such disrespecting of public money. Of course the foreman was only getting four dollars a day for sitting on the bank and watching others toil around with the scrapers, and we must say that a better sifter we never saw. The foreman was a teacher. There are several retired men in the vicinity with children to support, who are well able to oversee road building, but of course they would have no use for the four dollars a day in bringing up a family.

We certainly hope that our council of next year will consist of much the same caliber of men. We all enjoy being taxed high and driving over poor roads. (The ploughing broke up nearly all the roads we did have) and there is no better way to have those things than by keeping the present council in office.

### KITCHENER REVIEWS THE SITUATION

Lord Kitchener made his first speech as Minister of war in the House of Lords on Tuesday afternoon and after a few remarks relative to his new position said:

"There will be serious conflicts which will undoubtedly strain the forces of our Empire and undoubtedly considerable sacrifices to our people will be entailed. These will be willingly borne for our honour and for the preservation of our position in the world, and they will be shared by our dominions, who are sending contingents and giving assistance of every kind to the mother country."

The response which already has been made by the dominions abundantly proves that we have not looked in vain to these sources of military strength and while India, Canada, Australia and New Zealand are sending powerful contingents, the territories of this country are replying readily to the stern call of duty which has come to them with such exceptional force.

"The Empire with which we are at war has called to the colours almost its entire male population. The principal we, on our part, shall observe. That while the maximum force in degrees constant diminution, the reinforcements we prepare will steadily and increasingly flow out until we have in array battle field which in numbers will not be less than in quality and not unworthy of the power and responsibility of the British Empire."

"I cannot at this stage say what will be the limits of the force required or what measures may eventually become necessary to supply and maintain it. But if the war should be protracted and if its fortunes should be such as to require, exertions and sacrifices beyond any which have been demanded will be required from the whole nation and empire, we are sure they will not be denied to the extreme need of the state by parliament or the people."

Yours truly,  
(Signed) R. Anderson,  
Excal, Alberta

## Summary of War News for the Week.

With her last reserves called out the Germans are making strenuous efforts to gain a smashing victory over the allied forces. Their efforts to cut off the French and British troops endeavouring to assist the Belgians during the latter part of last week were successful and the allied forces were compelled to retire.

The time limit for Germany's answer to Japan's ultimatum expired at noon on August 23rd, and the Japan government ordered the beginning of operations as no answer had been received. An Austrian army of 200,000 men was completely routed by the Serbian forces at Lonitz.

A report is in circulation that the Emperor Francis Joseph is dying.

The enormous Russian army is sweeping all opposition before it in East Prussia, but information as to number of opposing forces is not available.

After three days fighting near Mons, the position of the allied forces became untenable and offensive operations were abandoned when the allies fell back on new positions. It is admitted by the French War office, that the fate of France depends on the ability of the Allies to hold the Germans in check till the huge Russian army commence operations against Berlin.

Sir John French reports two thousand casualties among the British troops in recent battle, but speaks in highest terms of the splendid discipline and bravery of the men. The handling of the wounded was carried out in excellent order.

The allied forces continue to engage the Germans all along a battle front of about 100 miles. Official news is scarce however and apart from the report that they have been compelled to give ground at the east of their line no authentic news has been received.

The French cabinet has resigned to re-organize by including leaders of all sections.

The Russian army in Galicia is reported to have swept back the Austrians from Tarnopol which place they now occupy.

Germany seems to have abandoned all hope of any help from Italy and reports state that they will now be quite satisfied if Italy will continue to keep neutral. Germany fears she will be alone was against Austria.

## Muhlback

(By special request our correspondent for this district has been asked to call the attention of the readers of this Municipality to the following—)

From time to time we hear a large number of our people commenting very strongly on the action of the council of the municipality doing and holding all their business and municipal meetings in Loveran, a town some distance across the Saskatchewan border. It is doubtful whether a similar case to this could be found in Western Canada. If the members of the council were being paid on a mileage scale for attending each meeting we would not wonder at them continuing the practice at the distance must be double what it would be had they an office erected near the centre of the municipality.

Why not erect a neat hall at a central point for the whole municipality? The building would be a great benefit and convenience to the tax payers from whom the council will receive the heartiest support. The majority of the rate payers are anxious to have a hall erected in which they can hold municipal, political and social meetings and will come forward solidly in favour of the scheme when it is placed before them.

Last week Mr. and Mrs. Leslie and their daughter arrived here from Bowden, Alta., with their household effects. Mr. Leslie has been here for some time, having secured a very good half section of land on 24-29-2.

Eddie Frederickson, the eight year old son of Mr. Geo. Frederickson, recently had his toes badly broken while running on the prairie. He has been under the best treatment of Dr. T. H. Whaley, of Alaska.

The third annual Fair held at Sounding Creek or Big Bend, on August 10th was a great success in every way. The horse racing and field sports were ably looked after by Messrs. J. Long, Jas. Travers, Geo. Scott and D. A. McDonald. The crowd in attendance was the largest yet.

Mrs. C. H. Tracy of Alaska, spent two weeks in this neighborhood being the guest of Mr. and Mrs. H. McDonald and Mr. and Mrs. H. Muhlback.

Messrs. Alex. Brown and L. Leslie made a business trip to Oyen last week.

The Shulkey Bros. have sold their threshing outfit to a farmer south of Oyen, who will operate it in this locality, where there are a number of fine crops.

Mrs. Maggie of Sounding Creek, has rented her farm for three years. On the 15th inst. she moved with her son and daughter into Alaska so that the children could attend school there.

Many of the tax payers of the new school district recently formed at Sounding Creek are very dissatisfied at the way the school is being erected. Sounding Creek is not alone in this trouble, which is brought about by the incompetent manner in which the different Boards of Directors deal with the school funds.

Our Methodist neighbors are now holding regular services each Sunday in the Rush Carter School room. This is another evidence of the good feeling that exists between our people of different denominations.

Read the Oyen News for the news of your district.

The Quarterly Official Board of Oyen Mission will meet in the Pastor's room on Friday afternoon August 28th at 2 o'clock.

It's easy enough to be pleasant,  
And your life goes along like a song,  
You're a man worth while,  
You're a man that can smile,  
When you buy all your lumber at the "Beaver".
